04-03-13 / 1505
Planninh Briefing

Maintain water level in cove. Pumps currently off

Marsh in headwater of cove has oil and heavy brush. Will get with Corp again to ensure they know what will happen in that area.

Sod being delivered tomorrow pending soil analysis before installing but expect to install in next couple of days. Backfill not mentioned.

Work has progressed somewhat slower today. Estimated 30% complete in subdivision.

Elementary school reporting children complaining of illness in the same hall for two days

Five activist events today. Three in subdivision. Expect they are testing the perimeter.

Health has til 1600 to complete their analysis and summary.

Hynum at ADEQ provided a waste plan and awaiting concurrence.

\$2.7 million contract cost to date.

Claims: 94 to date, up 4 from yesterday

New emergency medical number.

EPA will do split samples at release site collected by Exxon contractor (possibly DOT).
